NORTHWEST
NATURALS®

QUALITY

Experts agree that consumers will continue to seek products with all natural, wholesome ingredients. Since 1980, Northwest Naturals has specialized in transforming fruit into nutritious, natural juice concentrates, fruit essences, WONF juice blends, and turnkey liquid fruit solutions.

Today, Northwest Naturals is a leading supplier of fruit juice concentrates, servicing both domestic and international manufacturers for products and applications such as:

- 100% Fruit Juices
- Fruit Nectars
- Fruit Waters
- Wine & Spirits
- Hard Ciders
- Micro Beers
- Sauces
- Dressings
- Bakery
- Dairy
- Confections
- Flavor Houses

We believe virtually any food or beverage product can benefit from fruit's "halo of health" image.

Our Products

We Know Juice

About Us

We start with great fruit

Strategically located in the Western United States, Northwest Naturals is located close to where the fruit is grown. We take great care in selecting our raw materials in order to meet and maintain our high standards. These discriminating standards help us supply our customers with reliable and safe products. For fruits grown outside of the United States, Northwest Naturals maintains an established network of qualified partners to secure tropical fruits, as well as the exotic.

Our promise

To help make your product stand out in the crowd, our team is committed to providing you with value-added services in a proactive, flexible, and efficient manner. We realize the quality of our products and process performance directly impacts your ability to acquire fruit ingredients for your choice products.

We believe your satisfaction is a direct reflection of our effectiveness as an organization.

Turning ordinary into extraordinary

Whether you're looking for an expert formulator and processor of turnkey fruit bases for use in the alcohol industry or custom blends designed to reduce process variabilities between numerous manufacturing plants and/or co-packers, we have the technical expertise to turn your next idea from ordinary into extraordinary.

Northwest Naturals also specializes in custom blend formulations that stabilize fruit flavor profiles from one crop year to the next, or from one growing region to another. Our developers create solutions to meet your specific needs, even when consistent color and flavor are critical or when the cost of primary fruit isn't economically feasible.

Applications

RTD Juice and Juice Drinks

Dairy Preps

Flavored Teas

Smoothie Beverages

Spirits and Liqueurs

Frozen Novelties

Sauces and Syrups

Bakery Fruit Preps

PRODUCTS

Our Products

Clarified Juice Concentrates

Juices which are normally sold as pulpy or cloudy, are processed to be clear with no suspended particles.

Lemon	Orange
Lime	Passion Fruit
Mango	Pineapple

WONFs (With Other Natural Flavors)

Juice concentrate WONFs are specially formulated blends of various juice concentrates with other natural flavors. These blends of juices, flavors, and acids are designed to match the characteristics of a stated fruit. WONFs are often used to reduce costs and improve product flavor.

Frozen Juice Bases

We produce a variety of all-natural, fat-free Granita, Smoothie, Juice Bar, Sorbet, and Sherbet Bases composed of fruit juice concentrates, fruit purées, acidulants, and natural flavors. Our bases provide a fresh, nutritious, and tasty component to any frozen dairy or dairy-type formulation.

Fruit Sweeteners

Mixed Fruit:

A blend of different fruit juices designed so no one fruit flavor is identified in the blend.

Frutex Syrups:

Fruit concentrates that have been processed to remove fruit solids so there is little or no flavor, color, or minerals. Typically used to replace HFCS for labeling purposes.

Essence Standardized

Pure fruit aroma recovered from the fruit juice concentrating process.

Apple	Passion Fruit
Blackberry	Peach
Black Currant	Pear
Blueberry	Pineapple
Concord Grape	Plum
Cranberry	Red Raspberry
Mango	Strawberry

Stock vs. Custom Formulation

Northwest Naturals offers a variety of products that are considered off-the-shelf or standard items. These products are typically available year-round and require less minimum order quantities than custom-formulated items.

We understand your product requirement may need to be specifically formulated for your unique application. We welcome the opportunity to create a custom formulation for your next product.
